How easy is it to change supplier?

Very easy. Gone are the days when you had to swap tanks. Now **your LPG tank will stay exactly where it is**, the only difference being it will be filled by another supply company. It is now ownership of the tank that changes from one supplier to another, not the tank itself.

How long does it take to change supplier?

Once it has been agreed it should take **no longer than 28 days** for you to start enjoying the benefits of cheaper LPG.
